Introduction

- We are one of the noted organizations engaged in manufacturing and supplying a qualitative range of PVC Home Furnishings and Industrial PVC Profiles to our valuable customers. These products reflect the expertise and intelligence of our skilled team of professionals. We make sure to abide by the prescribed standards and norms of the industry in order to deliver the highly qualitative range of products at the clients' end.
- As a manufacturer of PVC sheets for decoration which is applied to several types of substrates such as MDF, PB, Plastic, Aluminum, Metal and etc., we are contributing our best of effort to improve the quality with a reasonable price.
- Building infrastructure: We have developed infrastructure facility, which enables us to deliver an optimum quality range of products. Our infrastructure is sprawled across a wide area. The whole production processes are carried out in various department to provide hassle-free and smooth operations. Well-equipped with high grade machines and tools, this facility is used for delivering the best quality products at the customers' end.

Organization Chart

Factory

Our facility located in
Yangju city, South Korea

5 Calendars

- 2 for Rigid(14")

- 3 for semi rigid(18")

Outsourcing

- Printing lines
- Embossing lines
- Capacity: 5,000,000LMT per Month (Based on film)
- Specialized Q.C. Management Team

Why is Doolim?

Quality & Consistency :

- Quality and consistency are our priorities. We strive to stand tall on the customers' expectations and demands. Our operators and inspectors conduct several quality checks during the entire production process. The quality check begins from the initial step of selecting the best thermoplastic resin for PVC films. Further, by checking the calendaring process and dimensions during the different stages of production. In order to meet customers' requirement, we operate specialized Q.C. management Team

Accuracy :

- Our products stringently conform with the specifications provided by the clients. Special care is taken to ensure that the products fall in the parameter specified by the client.

Delivery :

- We timely deliver all our consignments at the customers' end.

Outstanding point : All of our products are eco-friendly

Deco Sheet 18'

Printing Paper

- Wide range color available
- Very good printability
- Very good surface finishing
- Thickness Size accuracy
- Dimensional stability
- Very good lay-flat

Application

Deco Sheet 18'

Semi Transparency

- Wide range color available
- Very good surface finishing by new technology
- High transparency & good slip effect
- Good surface finishing
- Very high impact strength

Application

Deco Sheet 18'

Molding

- Variety of the pattern & colors
- For membrane – apply to various shape of curve processing for kitchen door & furniture by membrane vacuum machine process
- Maintenance of elegant natural wood effect, excellent workability (curved forming), fine print effect & excellent adhesive property by the specially processed sheet back
- Material for front such as kitchen door & wardrobe door

Application

Deco Sheet 18'

Solid Color

- **Wide range color available**
- **Very good printability**
- **Very good surface finishing by new technology**
- **Developed properties**
- **Thickness Size accuracy**
- **Dimensional stability**
- **Very good lay-flat**

Application

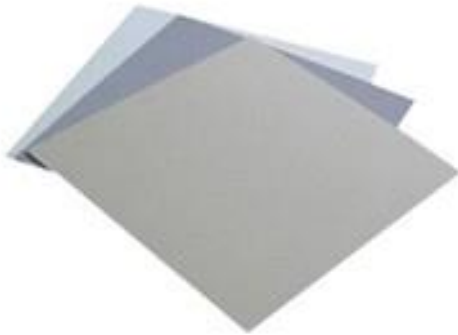

Deco Sheet 18'

Non Toxic

Application

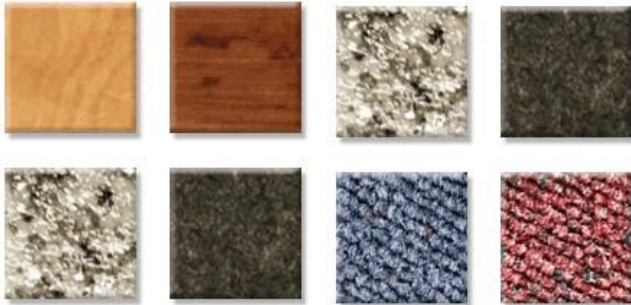

- **Wide range color available**
- **Very good printability**
- **Very good surface finishing by new technology**
- **Developed properties**
- **Thickness & Size accuracy**
- **Dimensional stability**
- **Very good lay-flat**

Deco Sheet 18'

Floor Tiles

- Wide range color available
- Wood tiles
- Home noble
- Carpet
- Marble
- Pastel & Ceramic
- Mosaic

Application

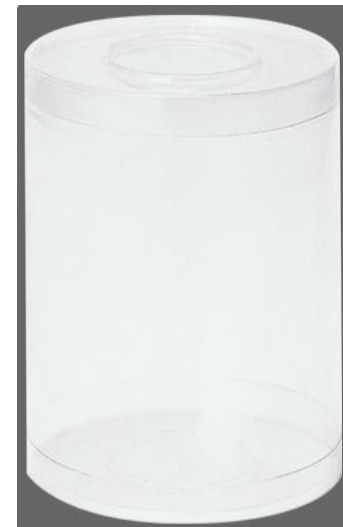

PVC Rigid Film 14'

Normal Transparent Products

- High glossy
- High impact strength
- Good process ability
- Good split effect
- Good for cutting, bending & laminating

Application

PVC Rigid Film 14'

Printing Materials

- Good printability
- High transparency & good split effect
- High cutting size accuracy
- Good surface finishing
- High impact strength

Application

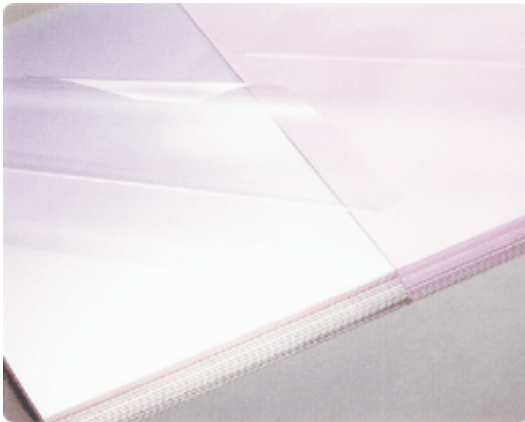

For package of all kind of products and printing the labels

PVC Rigid Sheet 14'

Stationary

Application

For stationeries, files & ect.

- **Good surface finishing**
- **Good cutting size accuracy**
- **Wide range color**

PVC Rigid Sheet 14'

Cards

- Good printability
- Good surface finishing
- Good lay flat
- Good thickness and size accuracy
- Good dimension stability
- Good process ability, laminating, punching

Application

The raw material for credit card, telephone card, combi card, RF card & etc.

PVC Rigid Sheet 14'

Playing Cards

- Good printability
- Good surface finishing by new technology
- Good lay flat
- Good thickness and size accuracy
- Good dimension stability
- Good process ability, laminating, punching

Application

For playing (Trump) cards

Product Advantage

Our products are known for the following attributes:

- **Termite Proof** : PVC profiles that we manufacture are termite proof and no termites or other insects can harm the product unlike other material (wood, fly, etc.)
- **Water Proof** : Our profiles are waterproof and do not expand while coming in contact with water.
- **Fire Retardant** : Our products are highly fire retardant.
- **Multiple Colors and Shapes** : One of the highlights of our range of PVC profiles is that they are available in wide variety of colors, patterns, shapes & sizes.
- **Excellent endurance to varying weather conditions** : Weather has no effect on PVC profiles & materials. They are free from corrosion, rust, rotting, etc. Even in extreme conditions like coastal areas (salt, storm, sun) PVC is more applicable.

Product advantage

- **Easy to Install** : Practically any automated or manual processing is possible. It is very quick & easy to fabricate & install these products.
- **Economical** : These products are offered in an economical price range in comparison to the other alternates available in the market.
- **Durability** : These profiles have higher functional life & are very durable.
- **Anti Fungi Properties** : No bacteriological development takes place on PVC profiles.
- **Easy Maintenance** : These products can be easily cleaned by using gentle household detergent dissolved in water. This range of products is virtually dirt resistant because there are no pores, that accumulate dirt.
- **100% Mechanically Recyclable** : One major environmental advantage of PVC profiles is that they are mechanically recyclable.
- **Eco-friendly** : all of our products are eco-friendly one.
